NEW PATIENT INFORMATION

Instructions from Dr. Yanuck…

The forms that follow provide you an opportunity to describe the details of your child's case. Please look over the forms now, as they may take you longer than you would expect to fill them out. Patients usually set aside two to three hours to complete them. The more effectively you can convey information using these forms, the more efficiently I can come to the level of understanding necessary to properly manage your child's case.

One of the most important elements in the history is the narrative that you write. This exercise can feel a bit intimidating at first, but you will find that it's a great way to clarify the information that gives me clues about what's going on. It creates a starting point of clarity that sets the stage for a successful clinical process.

The narrative should be submitted as a Word document that you create and send to us by email to staff@yanuckcenter.com. This should be done in advance of your appointment (even if it is the same day) so that I have it in front of me on my computer during our initial discussion. The narrative should tell the story of your illness, from when it started, up to the present. It should include the following elements:

1. Relevant dates… "I first noticed a problem in June of _____" "The problem got much worse in September of _____, when_____"
2. Key things that make it better or worse… "I noticed my child felt better with medication xyz… when they took supplement xyz… I noticed my child got worse when they got xyz infection… when we moved to a new house… when they changed their food…"
3. Key tests with dates… "…an MRI in June 2022 that was negative…" "…a blood test on March 10, 2023 that showed an xyz infection…"

In short, please make your narrative clear, sequential, detailed, and to the point. I look forward to starting our work together.

- *Dr. Sam Yanuck*

Metabolic Assessment

Please CIRCLE the appropriate number on all questions. 0 = lease/never. 3 = most/always.

Category I - C

Feeling that bowels don't empty completely……..	0	1	2	3
Lower abdomen pain relief passing stool or gas…….	0	1	2	3
Alternating constipation and diarrhea …….	0	1	2	3
Diarrhea……	0	1	2	3
Constipation …….....	0	1	2	3
Hard, dry, or small stool……..	0	1	2	3
Coated tongue or "fuzzy" debris on tongue……	0	1	2	3
Pass large amount of foul smelling gas……	0	1	2	3
More than 3 bowel movements daily ……..	0	1	2	3
Use laxatives frequently (more than twice a month) …..	0	1	2	3

Category II - P

Increasing frequency of food reactions …….	0	1	2	3
Unpredictable food reactions ……	0	1	2	3
Aches, pains, and swelling throughout the body …..	0	1	2	3
Unpredictable abdominal swelling ……	0	1	2	3
Frequent bloating and distention after eating ……	0	1	2	3
Abdominal intolerance to sugars and starches ……..	0	1	2	3

Category III - Chem

Intolerance to smells …….	0	1	2	3
Intolerance to jewelry ……	0	1	2	3
Intolerance to shampoo, lotion, detergents, etc. ..…..	0	1	2	3
Multiple smell and chemical sensitivities ……	0	1	2	3
Constant skin outbreaks ……..……	0	1	2	3

Category IV – HCL -

Excessive belching, burping, or bloating…….	0	1	2	3
Gas immediately following a meal……..	0	1	2	3
Offensive breath……	0	1	2	3
Difficult bowel movements……..	0	1	2	3
Sense of fullness during and after meals……..	0	1	2	3
Difficulty digesting fruits and vegetables; Undigested food visible in stool…….	0	1	2	3

Category V – HCL +

Stomach pain, burning, or ache1-4 hours after eating	0	1	2	3
Use antacids……..	0	1	2	3
Feel hungry an hour or two after eating……	0	1	2	3
Heartburn when lying down or bending forward…….	0	1	2	3
Temporary relief from antacids, food, milk, carbonated beverages……..	0	1	2	3
Digestive problems subside with rest and relaxation...	0	1	2	3
Heartburn due to spicy foods, chocolate, citrus, peppers, alcohol, and caffeine…..	0	1	2	3

Category VI - SI

Roughage and fiber cause constipation……	0	1	2	3
Indigestion and fullness lasts 2-4 hours after eating…	0	1	2	3
Pain, tenderness, soreness on left side under rib cage..	0	1	2	3
Excessive passage of gas……..	0	1	2	3
Nausea and/or vomiting……	0	1	2	3
Stool undigested, foul smelling, mucous-like, greasy, or poorly formed……..	0	1	2	3
Frequent urination ……	0	1	2	3
Increased thirst and / or appetite……..	0	1	2	3
Difficulty losing weight ……..	0	1	2	3

Category VII - GB

Greasy or high-fat foods cause distress ……..	0	1	2	3
Lower bowel gas and/or bloating hours after eating …..	0	1	2	3
Bitter metallic taste in mouth, especially in the morning	0	1	2	3
Unexplained itchy skin ……...	0	1	2	3
Yellowish cast to eyes …….....	0	1	2	3
Stool color alternates from clay colored to normal…..	0	1	2	3
Reddened skin, especially palms …….	0	1	2	3
Dry or flaky skin and / or hair …….	0	1	2	3
History of gallbladder attacks or stones ……..	0	1	2	3
Have you had your gallbladder removed ……..	Yes		No	

Category VIII - LV

Acne and unhealthy skin ……..	0	1	2	3
Excessive hair loss …….	0	1	2	3
Overall sense of bloating ……..	0	1	2	3
Bodily swelling for no reason ……..	0	1	2	3
Hormone imbalances …….	0	1	2	3
Weight gain …….	0	1	2	3
Poor bowel function ……...	0	1	2	3
Excessively foul-smelling sweat ……..	0	1	2	3

Category IX - HG

Crave sweets during the day ……..…….	0	1	2	3
Irritable if meals are missed ……..……..	0	1	2	3
Depend on caffeine to get started or keep going …….	0	1	2	3
Get light headed if meals are missed ……..……..	0	1	2	3
Eating relieves fatigue …….	0	1	2	3
Feel shaky, jittery, or have tremors …….	0	1	2	3
Agitated, easily upset, nervous ……	0	1	2	3
Poor memory / forgetful ……..	0	1	2	3
Blurred vision ……..	0	1	2	3

Category X - IR

Fatigue after meals ……..	0	1	2	3
Crave sweets during the day ……	0	1	2	3
Eating sweets does not relieve craving for sugar …….	0	1	2	3
Must have sweets after meals ……..	0	1	2	3
Waist girth is equal or larger than hip girth ……	0	1	2	3
Frequent urination ……	0	1	2	3
Increased thirst and appetite ……	0	1	2	3
Difficulty losing weight ……...	0	1	2	3

Category XI – A-

Cannot stay asleep at night ……..	0	1	2	3
Crave salt …….	0	1	2	3
Slow starter in the morning ……..	0	1	2	3
Afternoon fatigue …….	0	1	2	3
Dizziness when standing up quickly ……	0	1	2	3
Afternoon headaches ……	0	1	2	3
Headaches with exertion or stress ……	0	1	2	3
Weak nails ……	0	1	2	3

Category XII – A+

Cannot fall asleep ……	0	1	2	3
Perspire Easily …….	0	1	2	3
Under high amount of stress ……	0	1	2	3
Weight gain when under stress ……	0	1	2	3
Wake up tired even after 6 or more hours of sleep …..	0	1	2	3
Perspire excessively or with little activity ……	0	1	2	3

Metabolic Assessment

Please CIRCLE the appropriate number on all questions. 0 = lease/never. 3 = most/always.

Category XIII - pH

Edema and swelling in ankles and wrists ……	0	1	2	3
Muscle cramping ……	0	1	2	3
Poor muscle endurance ……	0	1	2	3
Frequent urination ……	0	1	2	3
Crave salt ……	0	1	2	3
Abnormal sweating from minimal activity ……	0	1	2	3
Alteration in bowel integrity ……	0	1	2	3
Inability to hold breath for long periods ……	0	1	2	3
Shallow, rapid breathing ……	0	1	2	3

Category XIV – T-

Tired, sluggish ……	0	1	2	3
Feel cold – hands, feet, all over ……	0	1	2	3
Require lots of sleep to function properly ……	0	1	2	3
Increase in weight gain even with low-calorie diet ….	0	1	2	3
Gain weight easily ……	0	1	2	3
Difficult, infrequent bowel movements……	0	1	2	3
Depression, lack of motivation……	0	1	2	3
Morning headaches that wear off during the day ……	0	1	2	3
Outer third of the eyebrow thins ……	0	1	2	3
Thinning of hair on scalp, face, or genitals or Excessive falling hair ……	0	1	2	3
Dryness of skin and / or scalp ……	0	1	2	3
Mental Sluggishness ……	0	1	2	3

Category XV – T+

Heart palpitations ……	0	1	2	3
Inward trembling ……	0	1	2	3
Increased pulse even at rest ……	0	1	2	3
Nervous and emotional ……	0	1	2	3
Insomnia ……	0	1	2	3
Night sweats ……	0	1	2	3
Difficulty gaining weight ……	0	1	2	3

Category XVI – P-

Diminished sex drive ……	0	1	2	3
Menstrual disorders or lack of menstruation ……	0	1	2	3
Increased ability to eat sugars without symptoms …...	0	1	2	3

Category XVII – P+

Increased sex drive ……....	0	1	2	3
Reduced tolerance sugars …….	0	1	2	3
"Splitting" type headaches ……...	0	1	2	3

Authorization For And Consent To Treatment

This clinic maintains personnel and facilities to assist your doctor in the performance of various manipulative procedures and other diagnostic and therapeutic procedures. These manipulative and ancillary procedures all may involve calculated risks or complications, injury or even death, from both known and unknown causes and no warranty or guarantee has been made as to the result or cure. Except in emergency or exceptional circumstances, procedures are not performed upon patients unless and until the patient has had an opportunity to discuss them with the doctor.

Each patient, or their parent or guardian, has the right to refuse any proposed procedure, process, or therapy, at any time during each visit.

Due to the uniqueness of each case and each individual, including his or her willingness and ability to implement the treatment recommendations provided, no guarantees of successful treatment can be offered. In addition, responses to each aspect of treatment can be potentially unique and idiosyncratic. Though the intent of care is improvement, your child's responses can vary. Always inform us of any concerning observations. You further acknowledge that, unless you initiate a specific doctor-patient process with her, Dr. Cheryl Yanuck is not in any way involved in your case.

Your child's doctor may determine that the procedures listed below may be beneficial in the diagnosis or treatment of your child's condition. Upon your signed consent below, such operations or special procedures may be performed for your child by your doctor and/or by other technical staff selected by him or by other cliniicans or staff members to whom your child is referred (for example, by a phlebotomist at the lab where you go for a blood draw). This authorization applies both to the listed procedures and to advice given as part of your child's care. In your doctor's absence, this consent applies to the doctor or staff selected to provide coverage for emergencies.

Your signature below constitutes your acknowledgment that: (I) you have read and agreed to the foregoing: (2) You understand that, when appropriate, each procedure will be discussed with you ahead of time, and that if this discussion is not sufficient to provide your understanding, it is your responsibility to request more information (3) You authorize and consent to the performance of procedure(s) or specific tests (4) You consent to the performance of procedures and tests in addition to or different from those specified below whether or not arising from presently unforeseen conditions which your doctor or his associates or assistants may consider necessary or advisable in the course of the procedure(s) specified below: (5) No guarantee of a cure has been promised to you. In addition to other procedures discussed at the time they are performed, procedures may include the following: manipulation, exercise, heat, cold, phlebotomy, nutrition, orthopedic testing, neurologic testing, physical examination, rehabilitation exercises, dietary instructions.

Informed Consent for Exercise, Training, and Rehabilitative Activities

In the course of your child's assessment and treatment process, elements of the work may involve exercise or rehabilitative activities. As with virtually any therapeutic modality, there exists a risk of injury. While problems with such activities are unlikely, this page describes your recognition of the risks involved in such activities.

The undersigned hereby voluntarily consents to engage in a program of exercise, training, and/or rehabilitative activities as the clinician deems appropriate to your case. In the course of this process, it is vital that your child provide adequate feedback regarding any changes that they observe. When engaging in an exercise program, it is important to distinguish muscular pain due to fatigue as compared with pain experienced as a result of an injury. If an exercise causes pain, your child should stop that exercise immediately and inform us so that the exercise can be either modified or discontinued. Likewise, when a particular exercise causes pain only in a portion of the range of motion, notify us and do not perform the portion of the exercise that caused pain.

Any questions about the procedures used in any component of your child's care are encouraged. If you have any doubts or questions, please ask for further explanations.

It is understood that you may withdraw consent and discontinue participation in any rehabilitation or exercise component of your child's care at any time.

Finally, the undersigned releases and discharges this facility, their officers, agents, staff, physicians, technicians and any others connected therewith from all claims or damages whatsoever that the undersigned or his/her representatives may have arising from, or incident to your child's exercise program.

About Medications

As our work unfolds, your child's body may be better able to heal itself. Because of this, your child's cognitive functions, allergic responses, blood sugar levels, and other important bodily functions might improve. As the body changes, it is possible that the doses of medications your child is taking will need to be modified, to account for these changes. It is your responsibility, in coordination with your child's pediatrician, to monitor or have monitored those of your child's functions that relate to medications he or she is currently taking, to ensure that current doses do not become excessive or deficient in their effect on your child. These and any other changes to your child's regimen of medications must be made by and under the instructions of the physician who prescribed them.

All nutritional supplements should always be discontinued 10 days prior to any surgery and restarted with guidance from both Dr. Yanuck and the surgeon involved.

Additional Information

Please arrange to have any other relevant information sent to our office. This might include medical records, lab results, consultation reports, and any other test or study results such as x-rays or CT scans. This will help Dr. Yanuck evaluate your child's condition. Short documents like lab results or MRI reports may be faxed to (919) 401-9900. Longer documents like overall patient records should be copied and sent to the office.

Please list the names of your child's pediatrician and other doctors, so Dr. Yanuck can send a report to them with the details of his findings in your child's case, should it become appropriate for him to do so. List each doctor's full name and as much of the address information as you know.

_____ _____

_____ _____

_____ _____

☐ Please check this box if you wish to give Dr. Yanuck permission to send a report of his impressions to the doctors listed above, and give Dr. Yanuck and the doctors listed above permission to discuss your child's case.

As parent/guardian, I _____ hereby authorize the treatment of _____ by Dr. Samuel F. Yanuck, chiropractic physician. I understand that I will be responsible for supervising all aspects of care, including follow up, home instructions, and any other needs that might arise.

Dr. Sam Yanuck's Office Policies

YOUR RESPONSIBILITIES AS PARENT OR GUARDIAN

Every effort will be made to accomplish the maximum result in the most efficient manner.
You have three primary responsibilities in support of this goal:

1. **Follow the instructions** that Dr. Yanuck gives you. These may include changes in your child's food, nutrition, sleep management, activity levels, or other instructions.
2. **Keep the schedule** of your child's visits as close as possible to the recommended time of your follow up. The timing is based on the specifics of your child's case. Waiting longer than recommended can mean missed opportunities to give feedback and get important course corrections in the process of moving toward normal function.
3. **Dr. Yanuck sees patients remote-only.** If/when Dr. Yanuck determines that it is appropriate to return to in-person visits, you will be informed of the change. At that point, it is your responsibility to bring your child to the Yanuck Center in person.

APPOINTMENTS

Dr. Yanuck spends significant time in preparation for each of your child's appointments. Missing an appointment is a significant disruption to the flow of that preparation process.

If an appointment must be rescheduled, no charge will be made if notice is given at least two business days in advance.
This means you need to call before 5pm **Thursday** to change a **Monday** appointment, or before noon Friday to change a **Tuesday** appointment. **If this is not done, the full amount of the visit fee will be charged.**

Dr. Yanuck does his best to run on time. However, because he works with each patient until he has accomplished what needs to be done in that session, Dr. Yanuck often runs behind schedule. Please plan for delays in the starting and ending times of your child's appointments. **Do not schedule other appointments close to the ending time of your child's appointments with Dr. Yanuck.** If you want to start after the scheduled start time of your child's appointment, please call ahead to see if Dr. Yanuck is or is not running behind. **Otherwise, your child's appointment time starts at the scheduled time.**

FEES AND BILLING

The fee per hour is $334. **Payment is due at the end of each session. You are solely responsible for all charges.** If you request them, you will be given forms to submit to your insurance company.

Fax: 919/401-9900

THE YANUCK CENTER
for Life and Health

FEES AND BILLING, continued…

The initial consultation typically takes 90 minutes to two hours. Subsequent sessions usually last an hour. If sessions go longer or shorter, the fee is adjusted accordingly. Brief sessions are from 5 to 15 minutes. **Phone consultations are billed at the hourly rate.** There is no charge for brief questions sent by email, provided this function is kept to a minimum.

Dr. Yanuck bills as a chiropractor, so insurance policies that cover chiropractic may be expected to reimburse a modest portion of the fee for his services, though **there is no guarantee they will do so**. Submitting forms to your insurance company is your responsibility, if you wish to do so.

EMERGENCIES

If your child has an emergency, call 911. If you have a circumstance that is not an emergency, that involves an urgent need to connect with Dr. Yanuck, call our office and relay the information to the staff. Your call will be returned as soon as possible.

CONFIDENTIALITY

Our work together is completely confidential, as are your records. Your explicit written permission is required to release information about your treatment to doctors, insurance companies, family members or others.

ACKNOWLEDGEMENT

I,_____, have read these policies and agree to abide by them.
